CORPORATE CAPABILITIES

Coho TS maintains its corporate headquarters in Anchorage, Alaska, with a Washington Metropolitan Area office in Chantilly, Virginia. Led by its holding company, Copper River Management Company, and supported by its administrative services company, Copper River Shared Services, Coho TS is structured to provide our clients the speed and agility of a small business while having the strength and support of a large organization.

Coho TS understands our Federal clients' mission success is dependent upon creating and maintaining robust, high-performance infrastructures.

For this reason, we are dedicated to delivering the technical expertise and skilled labor that will maintain critical building systems and infrastructure, ensuring customer operations will not be compromised or adversely impacted. The goal of supporting the warfighter is our ultimate priority.

- Automation / Orchestration
- Data Center Architecture

Information Technology Enterprise Architecture Support

Extensive operational experience in solving complex, enterprise-wide challenges. Driven to transform our client's businesses into innovative, forward-thinking, and competitive enterprises, Coho TS delivers strategic, advanced consulting and professional services by providing modernization, operations and maintenance, security implementation and monitoring, enterprise architecture, and project management to maintain the organization's large number of applications.

Mission Critical Personnel and Blue Collar Support

COHO TS provides mission critical administrative and highly-skilled personnel providing a comprehensive portfolio spanning professional and managed services that ensure maximum value on investments. In addition, COHO TS is a valued partner of the US Navy providing blue collar personnel for troubleshooting, diagnosis, maintenance, and repair of systems to support NAVFAC throughout the United States and overseas.

Wireless and Enterprise Unified Communications (UC) Network Design and Implementation

Coho TS offers end-to-end network design and implementation services, starting from initial planning and architecture to the deployment of hardware, software, and connectivity solutions. Our wireless network solutions encompass site surveys, design, installation, optimization, and ongoing support to ensure reliable wireless coverage and optimal performance across the premises. We specialize in network upgrades, migrations, and optimization services leveraging the latest advancements in networking technologies to enhance efficiency, speed, and security. Our experienced team of network engineers ensures a seamless integration of components, adherence to best practices, and optimized network performance.

PAST PERFORMANCE

PROJECT: Network Modernization for USMC Camp Butler
LOCATION: Camp Butler, Okinawa, Japan | Value \$30M

The project is a single award IDIQ, and the requirements are Engineer, Furnish, Install, Secure, Test (EFIST) and make operational a turnkey BAN Transport and Enterprise Unified Communications (UC) Voice solution for the modernization of the existing communication infrastructure at MCB Camp Butler to include enterprise integration and convergence. Copper River is providing all ancillary equipment, labor, training, software, firmware, licenses, power, grounding, and interfaces associated with these systems to deliver a complete turnkey solution and provide all supporting documentation associated with the delivered solution.

Copper River IS understands our Federal clients' mission success is dependent upon creating and maintaining robust, high-performance infrastructures. For this reason, we are dedicated to delivering the technical expertise and skilled labor that will maintain critical building systems and infrastructure, ensuring customer operations will not be compromised or adversely impacted. The goal of supporting the warfighter is our ultimate priority.

PROJECT: Electronic Security Systems Upgrades
LOCATION: Army Research Laboratory (ARL) in AZ, FL, MD
Value \$16.1M

This is a multi-year IDIQ security contract to provide materials, equipment, and components in support of designing, installing, modifying, and repairing electronic security measures for the Army Research Laboratory (ARL) sites. The scope of the IDIQ contract includes access control, video surveillance and command center, radio frequency identification (RFID) tracking, intrusion detection, and facial matching and/or recognition. Under the ARL IQID Contract, task orders were issued for Electronic Security Work at Adelphi Laboratory Center (ALC), Aberdeen Proving Grounds (APG), White Sands Missile Range (WSMR), AZ, ARL Human Research and Engineering Directorate (HRED), Orlando FL, and Graces Quarters, MD.

DIFFERENTIATED PROCUREMENT ADVANTAGE

As an Alaska Native, Tribal-Owned, SBA 8(a) certified entity, Coho Technology Solutions offers a differentiated procurement advantage. As defined by the SBA 8(a) program Alaskan Tribal-Owned companies, like Copper River Technologies, are able to provide flexible procurement benefits in order to create, grow and manage their business. These procurement options include:

**Alaska Native
Tribal-Owned
SBA 8(a)**

01

For DOD entities, 8(a) direct award contract thresholds are increased to \$100M without justification.* 8(a) direct award contracts may be awarded for any amount above the \$100M threshold through the simplified Justification & Authorization process.** [*FAR 19.808-1(a), **FAR 6.302-5(b)(4)]

02

For non-DOD entities, 8(a) direct award contracts may be awarded to an Alaskan Tribal 8(a) entity of up to \$25M without justification. This is above the standard \$4.5M threshold other 8(a) entities are subject to.* In addition, 8(a) direct award contracts may be awarded for any amount above the \$25M threshold through the Justification & Authorization process.** [*13 CFR 124.506(b), **48 CFR 6.303.1]

03

Any 8(a) direct award contract awarded to an 8(a) entity is non-protestable. [13 CFR 124.517(a)]

ABOUT THE COPPER RIVER FAMILY OF COMPANIES

Coho Technology Solutions is proud to be a part of the Copper River Family of Companies. Owned by the Native Village of Eyak, the Copper River Family of Companies are a collection of both current and graduated Small Business Administration (SBA) 8(a) Certified entities that bring extensive experience supporting the diverse missions of our clients. From Cyber Security Solutions to IT Business Professional Services, and Construction Services to Marine Manufacturing, our vast past performance spans across multiple sectors to support a wide-range of requirements. Highly-skilled in solving complex challenges, Copper River brings a team of seasoned professionals that work closely with our clients to understand their problems and address their challenges through unique, customized solutions and services. For over a decade, our clients entrust us to deliver modern, agile, and differentiated solutions and services.
