

ITES-4H CONTRACT AT A GLANCE

- CONTRACT NUMBER: W519TC-25-D-A062
- VALUE: \$10B IDIQ / 10 YEARS
- ELIGIBILITY: ARMY, DOD, AND ALL FEDERAL AGENCIES
- SCOPE: HARDWARE, SOFTWARE, AND IT SERVICES

COPPER RIVER TECHNOLOGIES

MISSION-ALIGNED HARDWARE MODERNIZATION FOR DHA J6

Copper River Technologies (CRT), a tribally owned 8(a) enterprise and a \$500 million Alaska Native-owned organization, is uniquely positioned to support the Defense Health Agency (DHA) J6 through secure, reliable, and scalable hardware solutions aligned with enterprise healthcare IT modernization. CRT brings deep experience supporting Department of Defense and federal healthcare customers, delivering mission-critical IT infrastructure that enables clinical operations, cybersecurity, and medical readiness across complex enterprise environments.

As DHA J6 modernizes the Military Health System, including standardizing IT across more than 700 Military Treatment Facilities (MTFs) and supporting MHS GENESIS, CRT provides rapid access to compliant, enterprise-ready hardware through the ITES-4H contract vehicle. Our solutions are designed to support unified EHR operations, Zero Trust cybersecurity requirements, data interoperability, and both fixed and operational medical environments.

Solutions available through the ITES-4H contract vehicle.

DHA J6 MISSION SNAPSHOT	ITES-4H IS DESIGNED TO PROVIDE
 Sustaining and modernizing Army C5ISR systems	 Enterprise-grade IT hardware and integrated solutions
 Standardizing IT across 700+ MTFs worldwide	 Modernization of legacy systems and infrastructure
 Supporting MHS GENESIS and the unified EHR ecosystem	 Cyber-secure, interoperable, and scalable technologies
 Strengthening cybersecurity and Zero Trust alignment	 Rapid, flexible procurement pathways
 Improving data interoperability and analytics	 Support for cloud, data center, and network transformation

ENTERPRISE HARDWARE MODERNIZATION CRT supports DHA J6 by delivering standardized, secure end-user devices for both clinical and administrative environments. We enable large-scale refresh cycles across MTFs and provide hardware optimized for telehealth, clinician mobility, and modern healthcare workflows—ensuring consistency, reliability, and ease of sustainment across the enterprise.

INFRASTRUCTURE SUPPORT FOR MHS GENESIS CRT supplies compute, storage, and network hardware that meets the performance, availability, and reliability requirements of MHS GENESIS. Our solutions are designed to integrate seamlessly with DHA cybersecurity, interoperability, and enterprise architecture standards, supporting uninterrupted clinical operations and EHR performance.

CYBERSECURITY & ZERO TRUST-READY HARDWARE CRT delivers devices and network components aligned with DoD Zero Trust architecture, including hardware with FIPS-validated encryption, TPM, and secure boot capabilities. Our solutions support DHA J6’s cybersecurity objectives while ensuring compliance without disrupting clinical care delivery.

DATA MODERNIZATION & ANALYTICS SUPPORT CRT provides servers, storage platforms, and edge devices that support enterprise analytics, AI/ML initiatives, and data governance efforts across the Military Health System. These capabilities enable improved data flow, visibility, and decision-making while supporting DHA's long-term data modernization strategy.

OPERATIONAL & DEPLOYABLE MEDICAL IT CRT delivers ruggedized devices and deployable communications hardware for field hospitals, humanitarian missions, and contingency operations. Our solutions are designed to perform in low-bandwidth or austere environments, ensuring continuity of care and medical command and control wherever missions occur.

WHY COPPER RIVER TECHNOLOGIES Copper River Technologies offers DHA J6 a stable, mission-driven partner with the ability to scale rapidly and deliver enterprise-volume hardware. Our \$500M annual capacity, strong OEM partnerships, proven DoD and federal healthcare performance, and tribally owned reinvestment model position CRT to support DHA's modernization efforts with reliability, speed, and purpose.

WHAT WE'RE SEEKING FROM DHA J6

- A discussion with appropriate J6 stakeholders to understand upcoming hardware needs
- Insight into refresh cycles, MHS GENESIS expansion timelines, and infrastructure priorities
- Guidance on coordination channels and acquisition pathways
- Opportunities to support pilot efforts, market research, or technical evaluations

COPPER RIVER TECHNOLOGIES AT A GLANCE

Federally recognized Alaska Native-owned enterprise

Tribally owned 8(a) certified entity

\$500M Alaska Native-owned federal contractor

Enterprise IT modernization and cybersecurity expertise

Proven DoD and federal past performance
