

## ITES-4H CONTRACT AT A GLANCE

- CONTRACT NUMBER: W519TC-25-D-A062
- VALUE: \$10B IDIQ / 10 YEARS
- ELIGIBILITY: ARMY, DOD, AND ALL FEDERAL AGENCIES
- SCOPE: HARDWARE, SOFTWARE, AND IT SERVICES

### COPPER RIVER TECHNOLOGIES

### MISSION-ALIGNED IT MODERNIZATION, CYBERSECURITY, & ENTERPRISE SOLUTIONS FOR PEO EIS

**Copper River Technologies** (CRT), a tribally owned 8(a) enterprise and a \$500 million Alaska Native-owned organization, is uniquely positioned to support the U.S. Army's Program Executive Office Enterprise Information Systems (PEO EIS) through advanced IT modernization, cybersecurity, cloud engineering, and enterprise network solutions. CRT brings a proven record of delivering secure, modern, and resilient technologies across the Department of Defense and federal civilian agencies. Our capabilities directly align with PEO EIS's mission to design, acquire, integrate, and sustain enterprise information systems that enable global operations, readiness, and data-driven decision-making.

As the Army accelerates digital transformation, PEO EIS requires secure, scalable, and modernized IT solutions that ensure enterprise-wide interoperability and mission effectiveness. Through ITES-4H, CRT provides rapid access to advanced hardware, integrated solutions, cybersecurity-aligned architectures, and enterprise modernization services that accelerate digital transformation and enhance mission readiness.

Solutions available through the ITES-4H contract vehicle.

PEO EIS MISSION SNAPSHOT	ITES-4H IS DESIGNED TO PROVIDE
Delivering enterprise business systems	Enterprise-grade IT hardware and integrated solutions
Enabling Army cloud (cARMY) adoption	Modernization of legacy systems and infrastructure
Implementing Zero Trust enterprise security	Cyber-secure, interoperable, and scalable technologies
Integrating data platforms for analytics	Rapid, flexible procurement pathways
Ensuring interoperability across environments	Support for cloud, data center, and network transformation

**ENTERPRISE-SCALE IT MODERNIZATION** CRT delivers enterprise-scale IT modernization solutions that support PEO EIS's mission to design, acquire, integrate, and sustain the Army's enterprise information systems. Our capabilities include cloud migration and hybrid architectures, enterprise network modernization, Zero Trust-aligned identity and access solutions, secure mobility, and modernization of legacy enterprise applications. These capabilities strengthen PEO EIS's ability to deliver enterprise-wide digital transformation.

**CLOUD AND cARMY-ALIGNED CAPABILITIES** CRT supports PEO EIS's cloud modernization initiatives by delivering cloud-ready infrastructure, secure landing zones aligned with cARMY Cloud, automation for provisioning and compliance, cloud security engineering, and migration of enterprise applications and data. This enables PEO EIS to deliver scalable, secure, and cost-effective cloud environments across the Army enterprise.

**CYBERSECURITY AND ZERO TRUST INTEGRATION** CRT integrates cybersecurity into every solution through Zero Trust architecture design, identity and access management, network segmentation and micro-segmentation, RMF-compliant baselines, continuous monitoring, and supply chain risk management. These capabilities strengthen PEO EIS's ability to secure enterprise systems across all environments and enclaves.

**MODERNIZING ENTERPRISE INFORMATION SYSTEMS** CRT's technical approach focuses on delivering secure, scalable, and interoperable enterprise systems through modular cloud-native architectures, API-driven integration, Zero Trust enforcement across applications and data, automation to reduce operational workload, and AI-driven monitoring for performance optimization. This approach supports PEO EIS's mission to deliver modern, resilient enterprise capabilities.

**ENHANCING ENTERPRISE CYBERSECURITY** CRT integrates cybersecurity into every solution through secure configuration baselines, continuous compliance and automated reporting, integration with Army defensive cyber operations tools, and hardened architectures for cloud, on-prem, and hybrid environments. This ensures PEO EIS systems remain secure, compliant, and resilient.

**SUPPORTING ARMY DIGITAL TRANSFORMATION** CRT provides the technologies and expertise needed to advance the Army's digital transformation strategy, including cloud adoption and modernization, enterprise data integration, Zero Trust implementation, modernization of business systems, and support for multi-domain operations. CRT ensures PEO EIS can deliver enterprise capabilities that scale across the Army.

**PROGRAM EXECUTION & DELIVERY** CRT applies a disciplined program management framework aligned with DoD and PMI best practices, including dedicated program leadership, risk management and mitigation planning, configuration and change control, quality assurance, and transparent performance reporting. Our secure supply chain includes OEM-authorized distribution, DoD-compliant logistics and asset tracking, secure configuration and staging facilities, and rapid deployment for CONUS and OCONUS sites — ensuring PEO EIS receives mission-ready hardware and integrated solutions on time and fully compliant.

**WHY COPPER RIVER TECHNOLOGIES** Copper River Technologies delivers the secure, modern, and scalable enterprise IT capabilities PEO EIS requires to support the Army's digital transformation. Our integrated IT modernization solutions, cybersecurity expertise, and scalable delivery model directly enhance PEO EIS's ability to deliver secure, interoperable, and future-ready enterprise capabilities. CRT stands as a trusted, mission-focused partner committed to strengthening the Army's digital advantage.

## COPPER RIVER TECHNOLOGIES AT A GLANCE

Federally recognized Alaska Native-owned enterprise

Tribally owned 8(a) certified entity

\$500M Alaska Native-owned federal contractor

Enterprise IT modernization and cybersecurity expertise

Proven DoD and federal past performance
